

STSM: how to submit an STSM proposal in COST Action B28

STSM are short time scientific Missions. Proposals should be submitted to the leader of the STSM Panel, who will send it further to the other members of the panel. The STSM Panel has been elected by the MC of COST Action B28. Proposals should be submitted as a concise project proposal. Candidates should foresee enough time between the start datum and submission time (the proposal should arrive 4 weeks before the starting date at the COST Office. Time has to be added to these for weeks in order to allow the STSM panel to judge and approve on the proposal).

Note that applicants should also register online at the webpage:

<http://www.cost.esf.org/stsm>

The MC agreed on the following composure of the STSM Panel consisting of 3 people:

Rudolf Toman - vice chair of the action, leader of the STSM panel

Patricia Renesto-Audriffen

Maria Sarakellos

As a general guideline a checklist for the different steps to take in the STSM Application is added in Annex II of the STSM guidelines of COST.
